

Says

What have we heard them say?
What can we imagine them saying?

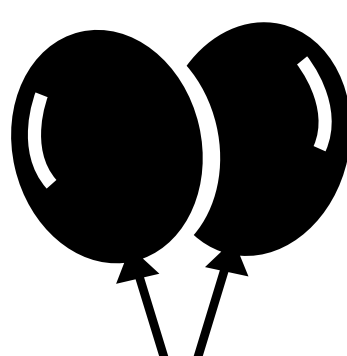

Thinks

What are their wants, needs, hopes, and dreams?
What other thoughts might influence their behavior?

World Environment Day (WED) is celebrated annually on 5 June and encourages awareness and action for the protection of the environment.

World Environment Day is a global platform for public outreach, with participation from over 143 countries annually.

WED has developed as a platform to raise awareness on the problems facing our environment such as air pollution, plastic pollution, illegal wildlife trade, sustainable consumption, sea-level increase, and food security, among others.

Efforts are made to bring communities, industries and other people together to save the environment

The purpose of this day is to take attention to environmental issues and not take nature for granted

World Environment Day is celebrated to make people aware about the environment

Social media post

Go Green To Save Your Planet

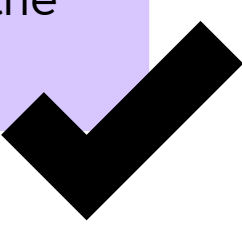

encourages awareness and action for the protection of the environment

These actions not only benefit the planet but also contribute to improved mental well-being.

Engaging in pro-environmental behaviors, such as reducing waste, conserving resources, and supporting eco-friendly initiatives, can foster a sense of personal agency and control over the environment.

Other possible signs include wrath or disappointment, especially against those who deny climate change or older generations for not making greater advancement, a fatalistic attitude, fear of the afterlife regret or humiliation about one's own carbon footprint, post-traumatic stress disorder following exposure to ...

Individuals can experience eco-anxiety, a state of worry, fear, or stress related to the environmental crisis

The realization of the Earth's vulnerability and the potential loss of ecosystems can lead to feelings of helplessness, despair, and hopelessness

Does

What behavior have we observed?
What can we imagine them doing?

Feels

What are their fears, frustrations, and anxieties?
What other feelings might influence their behavior?
